Miracles of **Visual** Plastics

IR Transmissive Sheet

IR680F – IR Transmission Plastic Film

- Based on our proprietary IR management technology, Visualplas IRF series IR pass film is transparent to 800-1100nm IR light, while blocks 300-650nm UV and visible light

IR680F – IR Transmission Chart

IR680F Data Facts

Item	Typical Value	Unit
Material	Modified PET	NA
900nm TRANS%	88.0	%
300-650nm TRANS%	<7.0	%
Gauge	50	Micron
Surface Hardness	HB (750g)	Pencil
Adhesive	Single Sided PSA	Na
Heat Resistance (°C)	120	°C
Refractive Index	1.59	Na
